

# LITTLE ENGINES

(O'Donnell / Campbell)

- Intro: Main line engines always boast how big they are – superior by far  
But little engines toil away from dawn 'till dusk – without a fuss or care
- Vse1: Just because they're small doesn't mean they don't stand tall  
And they pull their weight like all the others do  
You'll be surprised, in spite of their size, just what little engines can do
- Ch: Little engines – little engines – little engines can do the biggest things  
Little engines – little engines – little engines can do most anything  
They'll carry on until the work is over – they'll carry on to the end  
They're the smallest in the station, don't underestimate 'em  
They're not such little engines after all
- Vse2: Bigger engines say little engines play all day  
And there's not much use to anyone at all  
But they're strong enough to deal with those trucks, that's what little engines are for.
- Ch: Little engines – little engines – little engines can do the biggest things  
Little engines – little engines – little engines can do most anything  
They'll carry on until the work is over – they'll carry on to the end  
They're the smallest in the station, don't underestimate 'em  
They're not such little engines after all
- Mid: Thomas, Percy, Bill and Ben – you can rely on them these little engines are the best  
Stepney, Duck and Oliver they'll give the trucks what for, you'll be so impressed
- Ch: Little engines – little engines – little engines can do the biggest things  
Little engines – little engines – little engines can do most anything  
They'll carry on until the work is over – they'll carry on to the end  
They're the smallest in the station, don't underestimate 'em  
They're not such little engines after all
- Outro: They're our favourite little engines – they're mighty little engines  
They're not such little engines after all  
They're not such little engines after all
